

# ON MISSION - EQUIPPING COHORTS

## Allowing God to use you to make a spiritual difference in the lives of others.

### ARE YOU MAKING DISCIPLES FOR JESUS CHRIST?

All of us want our lives to count. As followers of Jesus we want to be like him in both his character and his missional priorities. But effectiveness in serving God is not always as easy as it seems. At The Campus Church, we want to help you find your sweet spot and be effective in living on mission, both in the church, and also where you live work and play. Do you sense you are at that place in your walk with God?

We have recently launched a training initiative called "On Mission". This equipping is cohort based, where you can journey toward greater effectiveness in making disciples with a few other like-minded people. The equipping will focus on three essential themes.

#### What is your calling?

What is God's call on my life and how can I reflect that in my spheres of influence?

#### How will you serve in the church?

How has God wired me for effective service and what is my contribution to the health of our church?

#### How will you impact your community?

How does God want to use me in reaching lost people and how can I become an effective witness for Him where I live, work and play?

#### Cohort based

Once a cohort group is identified we will meet together for 3 evenings, over 3 weeks, 3 times per year. Most modules will run from 7-9 pm on a weeknight. The modules will be approximately 3 months apart to allow for reading and assignments to be completed.

### HERE'S SOME OF THE THINGS WE WILL LEARN TOGETHER

- What is a disciple?
- How did Jesus make disciples?
- Understanding God's calling for my life within his broader mission
- What you do best in the body of Christ.
- How I can make disciples.
- Answering tough questions people have about Jesus.
- Priority management - keeping the fires of God's mission burning hot in my life.
- Being the good news - developing strategies for maximum impact for God's kingdom.

#### *What participants are saying about On Mission*

*I really appreciate being part of On Mission. It's a great chance to learn about why it's important to reach out to our friends and family with the good news of Christ. It's very helpful to have other people involved from the church willing to help listen and encourage me in my journey with the Lord. (Tim)*

*I loved being a part of On Mission. Before beginning I had a longing to tell people about the Good News of Jesus Christ but I was scared. After taking the course I'm equipped to engage with individuals and talk about the impact God has had on my life in a caring and loving way. I have the tools required and finally a plan that will help guide me in the future. (Mary)*

*I felt compelled to join On Mission as I found it to be a necessary step in my service to God. I had a desire to know more about discipleship and to discover how I could contribute to the growth of God's kingdom - His great commission that we be fishers of men. On Mission helped equip me to take my faith and obedience to the next level. (Margaret)*
